**Subject:** Rush Search for Serial No. 09/819,930  
**Importance:** High

I would like to request a Rush Search for Serial No. 09/819,930 since it is an amended case requiring a search.  
Thank you.

Please perform sequence search and interference search for Serial No. 09/819,930

1. Please search SEQ ID No: 1 against nucleic acid commercial and interference databases including pending and issued.
2. Please search SEQ ID No: 2 against nucleic acid commercial and interference databases including pending and issued.
3. Please search SEQ ID No: 3 against nucleic acid commercial and interference databases including pending and issued.
4. Please search SEQ ID No: 4 against nucleic acid commercial and interference databases including pending and issued.

Please save on COMPUTER DISKETTES.

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions **.rnpm** and **.rnpn**

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions **.rapm** and **.rapn**

***Because they contain data that is confidential, the results of Pending database searches should not be left in the case .***

**Please save results from interference data base search on different diskettes from the commercial and issued search results.**

Thank you very much
